There will be new vaudeville attraction at this theatre today and the act for the last half of the week is Mariette's Manikins in a presentation of vaudeville in puppetland. This is one of the finest novelties of the year and is sure to please both young and old. The feature photo play today only, is Mme. Petrova, the celebrated emotional actress in the five act sensational drama, The Vampire, a great picture of a woman who is more sinning against than sinning with. The scenes are depicted throughout the production. The remainder of the bill includes a beautiful colored scenic picture of The Bois de Boulogne, a picturesque photo picture of France. The comedy is called Bold Bad Boys and it is one of the funniest ever shown here. There will be a complete change of photo plays tomorrow and the feature for Friday and Saturday is the William Fox production of The Little Gypsy, a five reel photo play, featuring Dorothy Bernard, and a star cast of film favorites.

Harry Lauder Saturday Afternoon at The Davis.

When Harry Lauder plays in this city on his 5th annual tour of the country at the Davis theatre next Saturday matinee only he will have in his repertoire more new songs than he has ever presented in one programme, and while it is quite likely that his audience will demand some of the old favorites with which the name of Lauder is indissolubly linked, he will give them a treat of new material.

Mr. Morris has given Mr. Lauder a vaudeville company of international artists which has never been excelled and which include the Al Golem troupe, a company of 15 daring performers, dancers, acrobats and comedians. Mile. Lucile and her marvelous talking Cockatoo; Dave Genardes, Selwyn Driver, in his humorous piano specialty, and Albert Donnelly in comedy shadowgraphy.

### COLONIAL THEATRE.

"The Gypsy Trail" Sensational Vitagraph Two Reel Feature Film.

The Colonial is presenting Antonio Moreno, the hero of Island of Regeneration, one of this season's biggest successes. The story tells of a romantic love affair between two members of a gypsy band. When prosperity overtakes the young gypsy leader, he momentarily forgets his dark-skinned sweetheart, and hires himself to the city. There he meets "The Painted Lady," who almost wrecks his life. A dormant spark of self-respect is fanned to a flame by a sudden and unexpected meeting with his gypsy sweetheart, and the balance of the picture shows how he freed himself from the vampire of the city and returned to make the little aching gypsy heart, glad and happy.

Voices of the Past, a remarkable three-reel feature by the Lubin company presents William Cohl, Lillie Leslie, Joseph and John Smiley, and enormous cast in a stupendous production. Into the Dark is the Selig photo play, and Arthur Campbell is

### CIVILIZATION OWES MUCH TO FRANCE

Not Only For Its Suffering and Sorrow In Behalf of Human Liberty, But For Other Important Contributions.

(Special to The Bulletin.)  
Washington, D. C., Dec. 8.—When we reckon the debt that civilization owes to France we very soon discover that civilization, with that remarkable country left out, would be like a man without a soul. Being a bulletin issued today by the National Geographic Society, in which is sketched the greatness of the world's debt to France. "She has gravitated from one extreme to another," the statement continues, "from intense religious conviction to free thinking and back, from grave to gay and gay to grave, from suffering and sorrow to rejoicing and happiness—until she has become the pedestal of human progress, all the while driving onward the wheels of civilization."

"Whether we take her for her ideals of government, for her literature, for her science, for her intense religious conviction, for her intense religious conviction to free thinking and back, from grave to gay and gay to grave, from suffering and sorrow to rejoicing and happiness—until she has become the pedestal of human progress, all the while driving onward the wheels of civilization."

All Europe hung with utmost anxiety upon the course of events of the French revolution, for the people everywhere knew that the cause of the modern France was born. Of the fall of the Bastille, the great English statesman, Fox, declared: "How much is this the greatest event that ever happened in the world and how much the best."

Napoleon's career sounds more like a tale of romance out of the East than a true story out of the West. So transcendent was his genuine that a clever curate writing a skit on Napoleon, declared: "The man was not human history had been able to accomplish the things attributed to Napoleon. Some one has beautifully said of him that he was an autocrat in the name of democracy; a man of power in the name of equality; a man of other things, he left to his people the Code Napoleon which swept away the equality in the eyes of noble and peasant, and sent out into the world the invading forces of the ideas of liberty, equality, and fraternity, for which he has rendered up-to-date songs."

Today again the Auditorium will have another big vaudeville and picture show with three new vaudeville numbers. The Paramount Travel picture, The Bargain, with William S. Hart in the leading role. The well arranged vaudeville programme will open with Field Barnes, an expert xylophone player, who will be followed by Gorman and Phillips, in a very neat, fancy and modern dancing specialty, and the third number will be introduced by the Lucier Trio, two men and a woman, who have a very good singing and talking act.

The Paramount picture feature will be The Lady, a five reel masterpiece, produced by Gorman and Phillips, in a very neat, fancy and modern dancing specialty, and the third number will be introduced by the Lucier Trio, two men and a woman, who have a very good singing and talking act.

The Bargain was produced for the Paramount Corporation by Thomas H. Inc. who is now producing plays for the Triangle company. It is a western story, with western characters, western scenery, and laid in the Grand Canyon of Arizona, and is said to be one of the best pictures ever produced by the Paramount company. ### INFLAMED SKIN TROUBLE ON LEG

Itchy, Scratched and Broke Skin.  
Scalp Also Bothered. Dandruff Scaled Off. Cuticura Soap and Ointment Healed.

513 East 16th St., New York City.—"About two years ago an itching trouble just above the ankle. In a short time it became so itchy that at night it prevented me from sleeping and I scratched so hard that I broke the skin. The clothing irritated it and added to the inflammation. My scalp also bothered me. The dandruff scaled off and could be seen plainly in my hair and when combing it would fall like snowflakes. My hair was very dry and lifeless and came out at the slightest touch of the comb. The trouble lasted eighteen months when Cuticura Soap and Ointment were suggested to me. After using them for about a month I felt improved and could rest at night. I have no more trouble now thanks to Cuticura Soap and Ointment. My leg and scalp are healed." (Signed) Patrick J. Reilly, August 8, 1914.

which France suffered so much and to which the world owes so much.

While it is impossible to overestimate the debt that the world owes to France for the suffering and sorrow she has borne in behalf of the cause of human liberty, her other contributions to civilization have not been less notable. The world, indeed, owes much of its literary tenets and tendencies to the French language and literature. The roll of French writers is a long one and their contributions to literature are very rich. Moreover, it is her Pasteur who established the germ theory of disease and through whom the wonderful miracles of saving human life that have characterized the past third of a century have been wrought.

The normal death rate of civilized countries before the days of Pasteur was about 30 per thousand of the population. Today it is about 15 per thousand. It means that 15,000,000 cases of illness averted. It means happiness in 20,000,000 homes rather than disease and distress.

And we must not forget that radium comes to the world through the French laboratory and with it the budding science of radio-activity. Who can say what the world's debt to France therefore is going to be? Those who know most about it tell us that we stand with reference to extracting power from the rocks exactly where our forefathers long ago stood when they saw the lightning flash set fire to the earth. It means that we are ignorant and helpless to reproduce the fire.
